

# SAFE & INCLUSIVE LEARNING ENVIRONMENTS

West Wind supports districts to create and sustain safe and inclusive learning environments where students, educators, staff, leaders, and families feel safe to learn and that they belong as integral parts of the learning community. We center our work on research- and evidence-based approaches and tailor our services to local needs and experiences.

Our approach is grounded in our commitment to equity, cultural humility, and restorative and healing-centered practices. We root our work in the knowledge that these practices are more than just strategies to manage behaviors, they represent an underlying philosophy that allows communities of educators, students, families, and community members to focus on each other's strengths, to learn with and from one another, and to establish learning communities that are secure and equitable.

We tailor our Safe and Inclusive Learning Environments services to your district or building needs, including the following:

- Strategic planning
- Research, analysis, interviews, and focus groups
- Leadership support & coaching
- Professional learning
- Community engagement
